

Easifit Bolts

STEEL/STAINLESS STEEL 316

- With small washer and Nylon insert locknut
- Shank formed with hexagon tip. Special tool grips this hexagon, stopping bolt rotation while simultaneously driving the self-locking nut on (or off) in one easy operation
- Speeds fitting and removal of bolts
- Improves elevator safety
- Reduces belt damage caused by standard bolts

Option: Nylon insert self-locking nut for additional security (DIN 985)
